About Me

I am an aspiring MERN Stack Developer with a good understanding of MongoDB, Express.js, React, and Node.js. I enjoy building full-stack web applications that are clean, responsive, and user-focused. I constantly improve my skills through personal projects and continuous learning. I am seeking an internship where I can apply my MERN stack knowledge, gain practical experience, and grow into a more skilled developer.

Hobbies and Interests

- Solving coding challenges and building mini-projects
- Passionate about exploring new technologies and tools in IT

Education

BACHELOR IN COMPUTER APPLICATION

GPA: 3.6

Skills

Programming Language

JavaScript, Python, PHP, C#

Frontend

React.js, HTML, CSS, Bootstrap

Backend

Node.js, Express.js

Tools

Git, Github, Vs Code

Projects

ResiQuest

ResiQuest is a MERN-stack web app that helps users find rooms and hostels easily. Owners can post listings, renters can search using filters, and admins verify the information. Using MongoDB, React, and Node, the system is fast, secure, and easy to use.

College Website

A modern and responsive college website UI using React and Tailwind CSS, focused on showcasing academic programs with a clean and user-friendly design. The site uses a component-based structure for reusability and scalability, with interactive layouts, hover effects, and smooth responsiveness. new-summit-college.vercel.app
